DEFINITION OF TERMS

Maturity Profile : Distribution of the portfolio securities based on the remaining duration to maturity. The maturity of a portfolio security is the period remaining until the date on which the principal amount is unconditionally required to be paid, or in the case of a security called for redemption, the date on which the redemption payment is unconditionally required to be made. Maturity profile is subject to change and may have changed since the date specified.

Weighted Average Credit Rating : An average of the assigned credit rating by a credit rating agency for all securities held in the portfolio, weighted by each security's percentage of total investments. This is a method of assessing the risk level of a fixed income fund based on credit ratings of the holdings within the fixed income portfolio. The weighted average credit rating is subject to change and may have changed since the date specified.
