KEY INVESTOR INFORMATION DOCUMENT

1. WHAT IS THE INVESTMENT OBJECTIVE?

The overall objective of the Fund is to maximize the returns a moderate level of risk, with the potential of making capital gains through exclusively investing in medium to long term government securities in both primary and secondary markets.

The Manager will make investments;

- 1) To achieve maximum returns
- 2) To receive regular interest income and capital gains when yield curve movements are favourable.
- 3) To maintain liquidity to meet dividend payments and redemption requirements.

The Manager will be permitted to leverage the amount invested in the portfolio, to a maximum of 15% of the net asset value of the Fund if the fund is subject to a liquidity issue arising from unforeseen redemptions.

2. WHERE WILL THE FUNDS BE INVESTED IN?

The Fund will be invested in the following instruments;

- 1) The Government of Sri Lanka Treasury Bills and Bonds, including medium/long term treasury bonds with maturities greater than 5 years and
- 2) Repurchase Agreements of Government of Sri Lanka securities

TYPE OF INVESTMENT	ASSET ALLOCATION
The Government of Sri Lanka treasury bills and bonds, including medium /long term Bonds with maturities greater than 5 yrs	Up to 100% of the value of the Fund
Repurchase Agreement of Government of Sri Lanka securities	Up to 100% of the value of the Fund

3. WHAT IS THE VALUATION METHOD ADOPTED BY THE FUND?

All Government securities will be valued on a mark to market basis using the daily yield curve published by the Central Bank of Sri Lanka until maturity. Repurchase Agreements will be valued at cost plus accrued interest basis.

KEY INVESTOR INFORMATION DOCUMENT

4. WHAT ARE THE RISKS?

Low risk low return

This Fund will be invested exclusively in securities issued or guaranteed by the Government of Sri Lanka. Therefore, it is anticipated that the investments of the Fund would be free of default risk. However, the Fund is subjected to Market Risk.

Interest rate risk

The Fund invests in both medium to long-term instruments exposing it to interest rate movements. As such, significant declines in interest rates will lead to an improvement in the fund performance due to the market impact in the bond holdings (maturities >365 days) and vice versa. We mitigate this risk by basing our asset allocation decisions on our interest rate outlook. The interest rate outlook is developed by leveraging our extensive expertise in capital markets and our meticulous research process.

Credit risk

This is the risk that an issuer of a debt will not or is unable to pay the interest and/or the capital. As we invest only Government securities, the Fund will only assume the credit risk of the Government of Sri Lanka. Therefore rating agency action on the credit quality of the government of Sri Lanka will be the only determinant and the issuer exposure will be 100% G-Sec.

Inflation risk

This is the risk that inflation will exceed investment returns leading to negative real returns. This risk sees a substantial level of natural mitigation as short/medium-term interest rates react rapidly to inflation.

Liquidity risk

This is the risk that the Fund may not be able to readily liquidate an investment into cash or will have to liquidate at a substantial discount which would impact performance. We mitigate this risk by keeping part of the fund's assets in highly liquid instruments such as treasury bills and repurchase investments.

KEY INVESTOR INFORMATION DOCUMENT

9. HOW WILL UNITS BE ALLOTTED ONCE PAYMENT HAS BEEN MADE?

Applications are processed upon the receipt of valid application form and units will be allotted upon realization of funds based on the time-of-day money is realized in the collection account.

- If funds are realized before 9.30 a.m. on a business day, units will be created based on the previous day's unit price as money can be invested as part of the deposited property on the current business day.
- If funds are realized after 9.30 a.m. on a business day, units will be created based on the same day's unit price as money cannot be invested as part of deposited property until the next business day.
- If there are any non-business day/s between the last business day and the current business day the issue price of a unit shall be derived by adjusting the closing NAV of the previous business day for accrued income and charges for the no of non-business days and dividing by the units in issue as at the previous business day in order to safeguard the interest of the existing unit holders.

10. HOW CAN I REDEEM UNITS AND WHEN WILL I GET THE PROCEEDS?

Redemption requests can be made in writing or by email* or from the ASWM online portal. A valid redemption request will then be processed as follows:

- For valid redemption requests received on or before 3.00 p.m. the closing net asset value of the same business day shall apply.
- For valid redemption requests received after 3.00 p.m. the closing net asset value of the next business day shall apply. Payment of redemptions will take a maximum of ten (10) business days upon the receipt of a valid redemption request.

*E-mail redemption requests can only be made from a pre-approved e-mail address and the Fund Manager will not be held liable for redemption instruction received from either method.

11. PRICING OF UNITS

The Issue Price of units will be calculated to four (4) decimal places by dividing the Value of the Deposited Property as at 4.00 p.m. (Sri Lanka time) on the date, by the number of units in issue on that date, and adding any Front End Fee and Charges in relation to issue of Units.
