ASIA SECURITIES DYNAMIC INCOME FUND

FUND FACT SHEET – OCT 2026

All information is as of 31-10-2026, unless otherwise indicated.

OVERVIEW

YEAR TO DATE[1]	LAST 90 DAYS RETURN[2]	NET ASSET VALUE OF FUND	RISK LEVEL
10.45%	11.23%	LKR 33,192 Mn	MEDIUM
(launch 20/Jan/2025)	(annualized)		

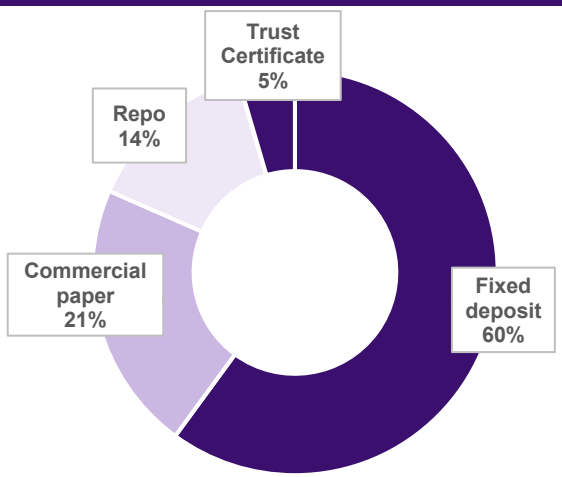

FUND OBJECTIVES AND STRATEGY

Investment Objective: The Fund aims to generate attractive income over the medium to long term, while maintaining a low to moderate level of risk.

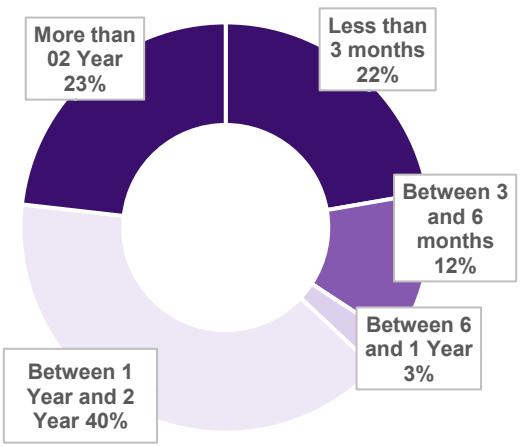

Fund Strategy: The Fund seeks to achieve its investment objective by investing primarily in government securities and investment-grade fixed income instruments rated BBB- or above. The portfolio may include repos, Government Treasury Bills and Treasury Bonds, fixed deposits, commercial paper, asset-backed securities, debentures and other eligible fixed income instruments. The Fund will actively manage its asset allocation, maturity profile and credit exposure with a view to optimizing risk-adjusted returns.

Intended for: Investors with a medium- to long-term investment horizon and a low to moderate risk tolerance, seeking potentially higher income than that offered by "A" rated bank deposits.

FUND DISCLOSURE

This report is for the use of intended recipients only and may not be reproduced, in whole or in part, or delivered or transmitted to any other person without prior written consent of Asia Securities Wealth Management (Pvt) Limited. By accepting this report, the recipient agrees to be bound by the terms and limitations set out herein. It is published solely for information purposes, it does not constitute an advertisement, a prospectus or other offering document or an offer or a solicitation to buy or sell any securities or related financial instruments in any jurisdiction. Information and opinions contained in this report are published for the reference of the recipients and are not to be relied upon as authoritative or without the recipient's own independent verification or taken in substitution for the exercise of the recipient's own judgement.

Investors are advised to read and understand the explanatory memorandum before investing. Among others, investors should consider fees and charges involved.

Any reference to past performance should not be taken as an indication of future performance.

1. Current yield is calculated on an annualized YTD basis and may have changed since the date specified
3. Portfolio composition is subject to change and may have changed since the date specified
4. Maturity profile is subject to change and may have changed since the date specified

DEFINITION OF TERMS

Maturity Profile : Distribution of the portfolio securities based on the remaining duration to maturity. The maturity of a portfolio security is the period remaining until the date on which the principal amount is unconditionally required to be paid, or in the case of a security called for redemption, the date on which the redemption payment is unconditionally required to be made. Maturity profile is subject to change and may have changed since the date specified.

Weighted Average Credit Rating : An average of the assigned credit rating by a credit rating agency for all securities held in the portfolio, weighted by each security's percentage of total investments. This is a method of assessing the risk level of a fixed income fund based on credit ratings of the holdings within the fixed income portfolio. The weighted average credit rating is subject to change and may have changed since the date specified.
